

Understanding Your Leather Purchase:

Genuine leather unique traits may cause natural variations in shade and texture, both within a single hide or between different hides. We ensure each hide is carefully inspected and free from excessive defects before sale, some signs of natural origin are inevitable. Hide sizes vary from 4.0 to 5.5 m², please contact us for information on current availability.

While our samples provide a reliable guide to color and finish, please note that achieving an exact match is not guaranteed.
